KEY PROJECT

Sales and Customer Insights Web Application

Griffith College Dublin, 2025 | Live: saleswebapp-1hki.onrender.com

- Gathered requirements from end users and translated them into system features, replicating core business analyst responsibilities
- Built a full-stack retail analytics platform covering sales forecasting (ARIMA and Prophet), customer segmentation (K-Means), inventory simulation and marketing ROI analysis
- Created comprehensive system documentation, user guides and process workflows to support stakeholder adoption
- Developed Power BI dashboards and validated data accuracy across all reporting outputs to support business decision-making
- Maintained master data for products, categories and pricing structures across multiple regions, mirroring enterprise data management tasks

WORK EXPERIENCE

Operations and Compliance Team Member

BWG Foods (SPAR), Dublin | March 2026 to Present

- Operate within BWG Foods compliance framework, maintaining accurate records and adhering to organisational procedures daily
- Identified workflow inefficiencies and contributed to improving daily operational procedures
- Developed strong understanding of retail business systems, stock management processes and organisational workflows

Operations and Process Support

Daybreak, Dublin | January 2025 to March 2026

- Maintained accurate stock records, food safety documentation and daily operational reporting in line with Irish regulatory standards
- Contributed to process improvements and identified operational inefficiencies within the store

Customer Support and Data Operations Analyst

Panagia Group, Bangalore, India | December 2023 to August 2024

- Managed end-to-end order processing across multiple systems, maintaining data accuracy and integrity across all records
- Prepared operational reports and management updates, documenting issues, resolutions and process changes
- Resolved system-related queries and escalated issues through appropriate channels, supporting process improvement and operational efficiency
- Developed working knowledge of order management systems and billing processes across multiple fashion brands
